

EYA SAHBENI

Frontend-Focused Full-Stack Developer · Web & Mobile (React, Next.js, React Native)

+216 58 975 929 · sahbenii.eya@gmail.com · [eva.dev](#) · [linkedin](#) · Bizerte, Tunisia

SUMMARY

Creative and product-minded Full-Stack Developer with hands-on experience building and shipping real-world web and mobile applications. Proficient across the JavaScript ecosystem end-to-end, from crafting responsive, accessible UIs with React and Next.js to designing REST APIs and managing databases with Node.js and PostgreSQL. Currently building two independent SaaS products (Skivo and InboxID) from concept to launch, with a growing interest in product management and product ownership. Comfortable working independently as a freelancer and collaborating across time zones in Agile teams. Passionate about clean code, thoughtful UX, and delivering features that genuinely solve user problems. Open to remote roles worldwide.

EXPERIENCE

Bitcall.io

Full-Stack Developer (Frontend-Focused) · 08/2025 - 04/2026 · London, UK · Remote

- Worked as a front-end developer on a global VoIP & telecom platform serving international businesses and call centers, using React.js and Next.js
- Rebuilt and expanded the admin panel to integrate SIP (Session Initiation Protocol) functionality directly into the application, enabling outbound calling and other core VoIP operations from within the platform
- Redesigned the admin interface with a cleaner, more professional UI
- Redesigned and updated the eSIM and OTP sections, improving consistency and usability across the platform's core workflows
- Integrated RedotPay and two additional third-party payment providers into the front-end checkout flow, enabling frictionless billing across multiple currencies
- Gained hands-on experience with VoIP infrastructure, SIP protocols, and CDR data structures — my first exposure to telecom systems

Stack: React.js · Next.js · TypeScript · Tailwind CSS · REST APIs · Git · VoIP/SIP

ABCeez DIGITAL

Mobile Developer - React Native · 04/2025 - 07/2025 · Remote · Internship

- Contributed as a React Native developer on a bike/mobility mobile app for iOS and Android, implementing UI screens based on Figma designs
- Integrated Mapbox for in-app mapping and location features
- Implemented Stripe for in-app payment functionality
- Worked in an Agile team alongside designers, backend engineers, and a product manager during the internship

Stack: React Native · Mapbox · TypeScript · REST APIs · Tailwind CSS

CodeLogic_tn

Frontend Developer · 01/2025 - 03/2025 · Remote · Internship

- Worked as a front-end developer intern at a startup, handling tasks assigned directly by the co-founder on a client web project
- Built and maintained responsive UI components with React.js
- Fixed bugs and resolved issues across the application to improve stability and usability
- Managed application state using React Context and Redux; collaborated via Git

Stack: React.js · JavaScript · HTML/CSS · Redux · Git

Self-Employed (Direct Clients)

Freelance Full-Stack Developer · 01/2025 - Present · Remote

- Delivered MakeltLuxurious, a full-stack SaaS platform for digital wedding invitations, for a direct client.
- Currently freelancing with a company on a new web application for the hospitality industry
- Took on smaller freelance projects involving bug fixes, redesigns, and problem-solving for existing client codebases

Stack: React · Next.js · React Native · Node.js · Express.js · MongoDB · TypeScript · Stripe · Socket.io

SKILLS

Frontend: React.js · Next.js · React Native · Expo · Tailwind CSS · Bootstrap · Framer Motion · Material-UI · Redux Toolkit

Backend: Node.js · Express.js · REST APIs · Socket.io · JWT · Stripe · Supabase · Firebase · Laravel

Databases: PostgreSQL · MongoDB · MySQL · Prisma ORM · Sequelize

Mobile: React Native (iOS & Android) · Expo · Push Notifications

Tools: Git · GitHub · Vercel · Postman · Figma · Agile / Scrum · EmailJS

PROJECTS

MakeltLuxurious

[makeitluxurious.com](#)

Full-stack SaaS platform for luxury wedding invitations. Clients browse templates, customize with personal details and photos, pay securely via Stripe, and receive a unique shareable RSVP link - all in one flow. 5-10 paying customers to date.

Skivo · In Development

AI-powered kitchen companion app that helps users eat healthier, cut food waste, and save money - with smart recipe suggestions based on what's in the fridge, automated meal planning, and an AI assistant for everyday cooking decisions. Currently building toward launch.

InboxID · In Development

AI-powered email productivity app that brings order to a cluttered inbox - prioritizing important messages, tracking replies, and cutting through noise so users spend less time managing email. Currently building toward launch.

Tiko · Launching Soon

Desktop focus companion with a Chrome extension, built to capture thoughts, organize tasks, and help users stay in flow. Features voice-based brain dump, a distraction-free focus mode with timer, a smart calendar for tracking daily progress, colorful sticky notes, and theme personalization.

EDUCATION

Full-Stack JavaScript Developer Bootcamp

Jul 2024 – Jan 2025

ReBootKamp (RBK) · Ariana, Tunisia

Bachelor of Science in Economics

Secondary School of Tinja · Bizerte, Tunisia
